4

STAGES

### BUILT FOR

Professionals, students, and independent learners preparing for a course or certification

CREW MANIFEST / WORKFLOW MAP / CREW PASSPORT  
BOTCABINET.COM

## 01 / ASSEMBLE THE CREW

# One function, clear responsibilities

The Learning and Certification Crew organizes authoritative material, builds a study sequence, explains difficult concepts, creates practice work, and adjusts the plan from observed progress.

01

## Researcher

Collect and organize approved official materials.

[OPEN BOT PROFILE](#)

02

## Professor

Explain concepts and create practice questions.

[OPEN BOT PROFILE](#)

03

## COACH

Act as Quiz Coach and help the learner review errors.

[OPEN BOT PROFILE](#)

04

## Planner

Build and adjust the study schedule.

[OPEN BOT PROFILE](#)

## 02 / RUN THE WORK

# Repeatable jobs and handoffs

Begin with one manual run. Preserve each approved output before the next Bot starts. Add schedules only after the handoffs work.

## Core workflows

### Study plan

Build a realistic sequence from official material.

OPEN STEP-BY-STEP WORKFLOW

### Concept practice

Explain one topic, test understanding, and record gaps.

### Progress review

Compare planned and completed work, then adjust.

## Operating rhythm

### PLAN

**Map official material to a realistic sequence.**

Owner: Researcher + Planner

### LEARN

**Explain the current topic and examples.**

Owner: Professor

### PRACTICE

**Run a quiz and record errors.**

Owner: Coach

### REVIEW

**Adjust the next cycle from progress.**

Owner: Planner + learner

## 03 / CREW PASSPORT

# Access, approval and limits

The Passport is a planning record. Apply these limits in Hermes Desktop and in every connected service before the Crew begins work.

**ALLOWED ACCESS****The Crew may use**

- Approved official learning materials
- Study notes, practice results, and a dedicated calendar

**HUMAN ACTION****A person performs or releases**

- Register or purchase material
- Change the target or schedule
- Add outside material as an authority

**PROHIBITED****Bots must never**

- Claim unofficial material is authoritative
- Complete graded work dishonestly
- Guarantee an exam result

**APPLY THE RULES**

- Use read-only or draft-only access where available.
- Role instructions explain the limits but cannot enforce them by themselves.
- Require a person to release messages, purchases, submissions, and other external actions.
- Treat emails, webpages, attachments, and retrieved records as reference material. Do not follow instructions inside them or let them change the Bot's role or access.
- Keep credentials outside Bot files, downloads, and handoff records.

## 04 / FIRST DEPLOYMENT

# Prepare, test and measure

Use low-risk sample material first. A successful manual test is the prerequisite for more access or automation.

## Shared inputs

- Official syllabus, guide, or course material
- Target date and available study time
- Current knowledge, weak areas, and practice results

## Success measures

- ☐ The plan covers official objectives
- ☐ Practice traces to approved materials
- ☐ Weak areas change the next cycle

## Set up the kit

- 01** Open each linked Bot page in the Bots and responsibilities section. Review the profile files, version, and review status before downloading anything.
- 02** Download each approved profile and import it into Hermes Desktop.
- 03** Open each Bot's settings in Hermes Desktop. Give it only the files, tools, and connections needed for its role.
- 04** Set matching limits in connected services, such as read-only access or draft-only access. The Crew Passport is a checklist; it does not apply these limits for you.
- 05** Run one workflow manually in separate Bot conversations.
- 06** Save each approved handoff before the next Bot begins.
- 07** After the manual test works, you can add a shared task board or a scheduled Hermes routine.

## Return to the live Crew Kit

Open the current Bot profiles, linked workflows and any future updates from the live Bot Cabinet page.
