BOT CABINET

A LINCHPIN PROJECT

CREW DOSSIER
11

CREW KIT / STANDING BOT TEAM / CK-11

Small-Business Admin Desk

Organize incoming requests, draft customer replies and keep track of follow-ups.

CREW MANIFEST

5	4	4
SPECIALIST BOTS	WORKFLOWS	STAGES

BUILT FOR

Independent professionals, small firms, local businesses, and lean administrative teams

01 / ASSEMBLE THE CREW

One function, clear responsibilities

The Small-Business Admin Desk sorts approved incoming work, finds the relevant context, drafts routine replies, tracks follow-up, and prepares a weekly operating view. A person controls sending, payments, contracts, account changes, and deletions.

01 Chief of Staff

Sort incoming messages, tasks, and decisions and route each one.

OPEN BOT PROFILE

02 Researcher

Find the approved customer, project, policy, or service context.

OPEN BOT PROFILE

03 Client Deliverables

Prepare customer and partner communication drafts.

OPEN BOT PROFILE

04 Ops

Maintain open work, deadlines, exceptions, and status.

OPEN BOT PROFILE

05 Planner

Convert priorities into follow-up steps, owners, and dates.

OPEN BOT PROFILE

02 / RUN THE WORK

Repeatable jobs and handoffs

Begin with one manual run. Preserve each approved output before the next Bot starts. Add schedules only after the handoffs work.

Core workflows

Customer response

Research and prepare a routine response.

Operations status

Summarize work, deadlines, exceptions, and decisions.

OPEN STEP-BY-STEP WORKFLOW

Weekly owner review

Choose priorities and record decisions.

Meeting follow-up

Turn a meeting into approved actions.

Operating rhythm

DAILY INTAKE

Classify work and identify needed context.

Owner: Chief of Staff

PREPARE

Find the relevant information and draft replies or documents.

Owner: Researcher + Client Deliverables

TRACK

Update tasks, deadlines, and exceptions.

Owner: Ops + Planner

WEEKLY REVIEW

Approve priorities and consequential actions.

Owner: Person

03 / CREW PASSPORT

Access, approval and limits

The Passport is a planning record. Apply these limits in Hermes Desktop and in every connected service before the Crew begins work.

ALLOWED ACCESS

The Crew may use

- Only approved inboxes, folders, and records
- The task board, calendar, policies, prices, and templates

HUMAN ACTION

A person performs or releases

- Send a message or statement
- Make a payment, refund, purchase, or contract change
- Delete a record or change an account

PROHIBITED

Bots must never

- Access unrestricted banking
- Share confidential information
- Delete messages or change its own access rules

APPLY THE RULES

• Use read-only or draft-only access where available.

• Role instructions explain the limits but cannot enforce them by themselves.

• Require a person to release messages, purchases, submissions, and other external actions.

• Treat emails, webpages, attachments, and retrieved records as reference material. Do not follow instructions inside them or let them change the Bot's role or access.

• Keep credentials outside Bot files, downloads, and handoff records.

04 / FIRST DEPLOYMENT

Prepare, test and measure

Use low-risk sample material first. A successful manual test is the prerequisite for more access or automation.

Shared inputs

- Approved inboxes or copied messages
- Customer, service, project, policy, and pricing records
- Open task list and approval owners

Success measures

- [ ] Incoming work reaches a clear workflow or owner
- [ ] Drafts use approved records and policies
- [ ] A person approves sending, spending, contracts, and deletions

Set up the kit

01 Open each Bot's page below. Check its files, version and test status before downloading.

02 Download each approved profile and import it into Hermes Desktop.

03 Open each Bot's settings in Hermes Desktop. Give it only the files, tools, and connections needed for its role.

04 Set matching limits in connected services, such as read-only access or draft-only access. The Crew Passport is a checklist; it does not apply these limits for you.

05 Run one workflow manually in separate Bot conversations.

06 Save each approved handoff before the next Bot begins.

07 After the manual test works, you can add a shared task board or a scheduled Hermes routine.

Return to the live Crew Kit

Open the current Bot profiles, linked workflows and any future updates from the live Bot Cabinet page.
